

Research Support for Patent & Design Litigation

Stronger Evidence. Stronger Cases.

PatWorld provides investigator-led research to support patent and registered design litigation. Using multiple commercial patent databases, extensive non-patent literature and specialist archive research, we help legal teams uncover the strongest evidence available.

Comprehensive Search Coverage	Beyond Patent Databases	Strategic Investigation
Prior art, invalidity and registered design research using multiple leading commercial patent and design databases.	Scientific papers, technical journals, product catalogues, archived websites, historical publications and specialist library archives.	Every search strategy is tailored to the technology, relevant dates and legal objectives, with new lines of enquiry pursued as evidence emerges.

Why PatWorld?

- ✓ Multiple leading commercial patent & design databases
- ✓ Investigator-led research strategy
- ✓ Non-patent literature expertise
- ✓ Archive and historical research capability
- ✓ Clear, professionally presented reports
- ✓ Collaborative approach with legal teams

No Stone Left Unturned

Our philosophy is simple: we pursue every reasonable source of evidence until we are confident the search has been fully explored.

Who We Support

Patent attorneys • Solicitors • In-house legal teams • IP professionals • Technology companies
